

**AUTOMATED SPE POSITIVE PRESSURE MANIFOLD**  
**(Ref. No: NIN/ST/12/Automated SPE/2017-18)**

**Application:**

To process biological and food samples for the estimation of pesticide residues and various biological parameters using LC MS/MS and GC - ECD.

**Features:**

- Cost effective and flexibility
- Economical
- High throughput
- Zero Cross Contamination
- Chemical resistant
- Small footprint
- Uniform flow from well to well

**Specifications:**

1. Auto Manifold with 24 Sample Positions Positive Pressure
2. 24 positions sealing gaskets
3. Rack for SPE columns
4. Collection tubes 12 x 75mm, 12 x 32mm, auto sampler
5. Gas supply adaptor
6. Maximum flow pressure: upto 100psi

**Optional Items: Any additional accessories required to complete the system to be quoted. Spares required for 5years to be quoted under optional items.**
