

HOT AIR OVEN - 1No.

(Tender Ref. No. NIN/ST/12/Tender/2019/Hot Air Oven/22)

- Features:**
- Microprocessor controlled system with digital readout.
 - Temperature safety glass window.
 - Silent fan motor for controlling uniform temperature in the chamber.
 - Should be single door system

Specifications:

Capacity	:	500 Lit – 600 Lit
Temperature range	:	5°C above Ambient to 250°C
Temperature accuracy	:	± 1 °C
Uniformity	:	± 1°C
Controller	:	PID multifunction controller
Temperature control	:	Solid state
Timer select	:	Continuous/ Programmable
Display	:	Digital
Air circulation	:	Circulating fan
No of shelves	:	3 or 4 of SS (adjustable)
Inner chamber	:	SS (SUS304)
Outer chamber	:	Textured stainless steel /power coated steel.
Heaters	:	Three sides
Safety	:	Over heat and over current protection and Leakage break
Operating Voltage	:	220 V, 50 Hz
Warranty	:	3years warranty
