

REFRACTOMETER – 1no

(Tender Ref. No. NIN/ST/12/Tender/2019/Refractometer/46)

Application : To measure the refractive index of biological samples

Features :

Automatic Temperature compensation

Provision with Digital display

Specifications :

Refractive Index Scale	:	1.00 ± 0.5
Refractive Index Measurement accuracy	:	± 0.0005
Measurement temperature	:	Ambient ± 20°C
Urine specific gravity scale	:	1.000 . 1.060
Serum protein scale	:	0.0 . 12.0g/100ml
Accuracy for Protein	:	± 0.2g/100ml
Accuracy for Urine Specific gravity	:	±0.001
